CLAY PAVERS

Interlocking, genuine clay pavers represent the most popular look in paving today. *BrickAmerica* offers a wide range of rich color combinations in several different sizes that are guaranteed to never fade. Year after year, unlike concrete pavers, clay pavers maintain the same vibrant hues as the day they were installed.

BrickAmerica is credited with establishing and driving the market for interlocking clay pavers in Florida. Featured in these photos is our proprietary clay paver line that we distribute exclusively throughout the southeastern United States.

Genuine Clay Paver Color Selection Guide

Antique

Crimson

Rose

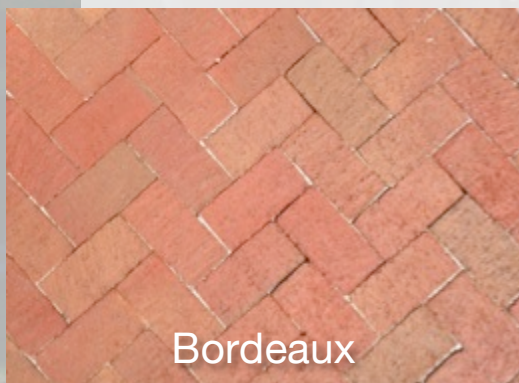

Sienna

Tuscany

Cocoa

Bordeaux

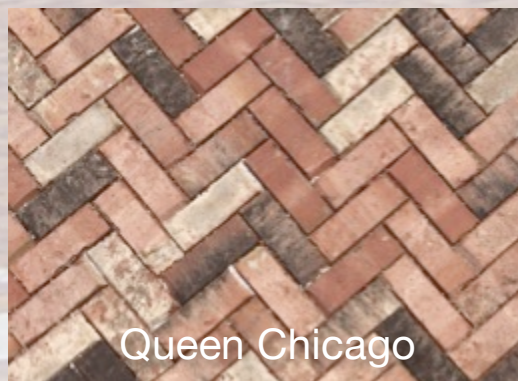

Mizner

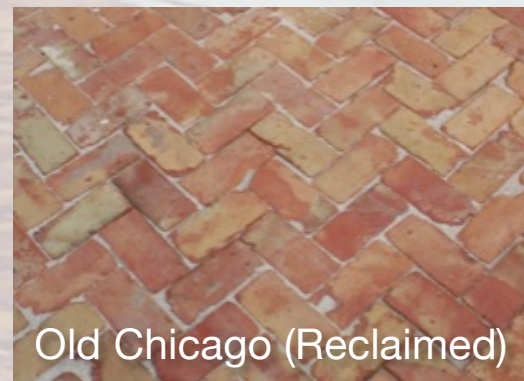

Bordeaux / Mizner Blend

Castle Grey

Queen Chicago

Old Chicago (Reclaimed)

Key Features

- Designed for every application including driveways and roadways
- Permanent color to last a lifetime and never fade
- Bullnose pool coping available in most colors
- 4" x 8" clay brick pavers (Queen Chicago 2 $\frac{3}{4}$ " x 7 $\frac{5}{8}$ ")
- Product testing results meet or exceed ASTM designation for most pavers. (C67-92 for comprehensive strength and C902 for absorption)

* Please note these Clay Pavers will have color variations and inconsistencies in them due to the inherent quality of the raw materials.
